Music, Festivals and Carnivals

New deadline May 31, 2020

WHO WE ARE

The Cultural and Creative Industries Innovation Fund (CIIF) was established in 2017 with an initial USD2.6 million in capitalisation from the Caribbean Development Bank. It is intended to be a multi-donor fund, which will support the development of the Creative Industries (CI) sector in the Caribbean. CIIF's goal is to enable the Region's cultural and creative industries to be globally competitive.

WHAT WE DO

CIIF provides grant funding for innovative projects within the CI sector. These projects should be focused on:

- supporting the enabling environment for the development of CI;
- improving the quality and dissemination of research in the CI sector;
- enhancing or creating data intelligence or data collection methods in ways that can move the sector forward; and
- enhancing the technical capacity of creative entrepreneurs.

Projects must demonstrate a significant measure of innovation, collaboration and sustainability.

WHAT IS THIS GRANT FOR?

In light of the loss of revenue by CI practitioners due to the effects of COVID-19, CDB has allocated USD 50,000 for the Music sub-sector and USD 50,000 for the Festivals and Carnivals sub-sector for CIIF Emergency Relief Grants. This grant is targeted at CI entrepreneurs who can demonstrate loss of income for music, festival and carnival events that have been cancelled as a result of COVID-19.

This grant is to be used for one of the following:

- **product development:** to produce an online/virtual product or event on an existing platform external to CDB, that leads to revenue generation.
- **market distribution & channelling:** to on board and promote new Caribbean content from emerging and established producers through existing regional and international electronic platforms.
- **digital disruptive technologies for music & festivals and carnivals:** to support the further development of an existing electronic solution that will facilitate revenue generation through online CI showcases, exchanges and performances.

Projects should be community oriented where possible with a percentage of funds raised going towards associations of health care workers or sanitation workers or registered charities.

HOW MUCH FUNDING WILL CIIF PROVIDE?

CIIF is offering a limited number of grants ranging from USD2,500 to USD20,000 each for the Music sub-sector and Festivals and Carnivals sub-sector.

Eligible project costs include expenses incurred facilitating stakeholder consultations, workshops and seminars, technical work, marketing and distribution; research including development of knowledge products for CIs; or new CI products and services and institutional strengthening activities.
