

DOMINICA

Dominica Water Sector Strategic Development Project

Better Water for all: Cleaner, Resilient, Reliable

PROJECT OVERVIEW

- Major Water Supply and Wastewater Network Upgrade
- Locations: East Coast, West Coast, Calibishie and Roseau Valley
- 56,000 Residents Will Benefit from Improved Drinking Water Quality and Better Sanitation Services
- Construction Completion - March 2026

RESULTS

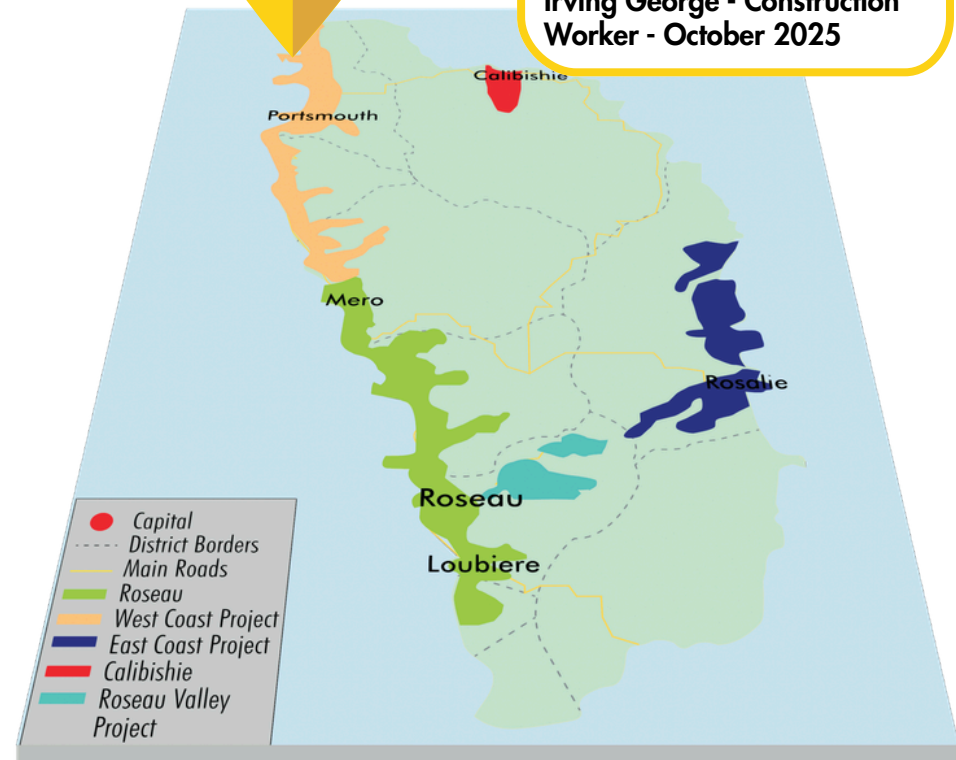

- Improving Water Quality and Reducing Pollution across the Project Area
- Enhancing the Efficiency and Climate Resilience of Targeted Water Supply and Distribution Infrastructure

FUNDING

"I'm very happy to be working on this project - it's a great initiative for the people in the area. It not only brings vital improvements to our community, but also gives me the opportunity to save towards building my own home."

Irving George - Construction Worker - October 2025

This project has been made possible through a grant from the United Kingdom Government under the UK Caribbean Infrastructure Fund (UKCIF), which provides grant funding for climate-resilient infrastructure projects to encourage growth and to support improved livelihoods, poverty reduction and safer conditions for residents. UKCIF is administered by the Caribbean Development Bank (CDB).
