

PUBLIC DISCLOSURE AUTHORISED

CARIBBEAN DEVELOPMENT BANK

Draft Audited Financial Statements

For the Year Ended December 31, 2016

(Expressed in thousands of United States Dollars unless otherwise stated)

This Document is being made publicly available in accordance with the Bank's Information Disclosure Policy.

March 2017

INDEPENDENT AUDITOR’S REPORT

TO THE BOARD OF GOVERNORS OF CARIBBEAN DEVELOPMENT BANK

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Ordinary Capital Resources of the Caribbean Development Bank (“the Bank”), which comprise the statement of financial position as of December 31, 2016, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as of December 31, 2016 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (“ISAs”). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor’s responsibilities for the Audit of the Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

INDEPENDENT AUDITOR'S REPORT

TO THE BOARD OF GOVERNORS OF CARIBBEAN DEVELOPMENT BANK

Report on the Audit of the Financial Statements (Continued)

Key Audit Matters (Continued)

Key audit matter	How our audit addressed the key audit matter
<p>Provision for loan impairment</p> <p>Related disclosures in the financial statements are included in Note 5 <i>Financial Assets, Provision for loan impairment</i>, and Note 10 (c), <i>Loans Outstanding (Pages xx – xx; xx – xx)</i></p> <p>As a Multilateral Development Bank (MDB), the Bank's largest exposure is country credit risk, which is the risk that a borrowing member country is unable or unwilling to service its obligations to the Bank.</p> <p>As at 31 December 2016, no specific or collective provision was established on the Bank's sovereign portfolio. The provision for loan impairment solely related to the specific and collective assessment of the non-sovereign portfolio.</p>	<p>We assessed and tested the design and operating effectiveness of controls over:</p> <ul style="list-style-type: none">- Management's process for making lending decisions inclusive of the approval, disbursement and monitoring of the loan portfolio.- Data used to determine the provisions for loan impairment, including transactional data captured at loan origination, internal credit quality assessments, storage of data and computations. <p>We assessed the adequacy of provision for loan impairment by testing the key assumptions used in the Bank's specific and collective provision calculations. The results of our independent review of the historical payment pattern and arrears status of the Bank's sovereign debtors was consistent with the Bank's data inputs and its "preferred creditor status".</p> <p>In addition, we assessed the adequacy of the disclosures in the financial statements.</p> <p>We involved IT specialists in areas that required specific expertise (i.e. data reliability).</p>

INDEPENDENT AUDITOR'S REPORT

TO THE BOARD OF GOVERNORS OF CARIBBEAN DEVELOPMENT BANK

Report on the Audit of the Financial Statements (Continued)

Key Audit Matters (Continued)

Key audit matter	How our audit addressed the key audit matter
Fair value of financial instruments Related disclosures in the Financial Statements are included in Note 3, <i>Risk Management</i> and Note 5 <i>Financial Assets, Fair value measurement</i> (Pages xx – xx; xx – xx). Valuation models are in use which require the input of market-observable data. The use of different valuation techniques and assumptions however could produce significantly different estimates of fair value. The associated risk management disclosure is complex and dependent upon high quality data.	We included derivative valuation specialists on our team who independently recomputed the fair value of all derivatives held by the Bank and the related sensitivity disclosures in accordance with IFRS 7, using their own internal model. We reviewed the market prices applied to the Bank's debt securities by comparing the prices used to an independent external source. We also assessed the adequacy of the disclosures in the financial statements, including the disclosure of valuation sensitivity and fair value hierarchy in Note 3. We involved IT specialists in areas that required specific expertise (i.e. data reliability, input of market prices).

INDEPENDENT AUDITOR'S REPORT

TO THE BOARD OF GOVERNORS OF CARIBBEAN DEVELOPMENT BANK

Report on the Audit of the Financial Statements (Continued)

Other information included in the Bank's 2016 Annual Report

Management is responsible for the other information. Other information consists of the information included in the Bank's 2016 Annual Report, other than the financial statements and our auditor's report thereon. The Bank's 2016 Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibilities of Management and the Oversight and Assurance Committee for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Oversight and Assurance Committee is responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITOR'S REPORT

TO THE BOARD OF GOVERNORS OF CARIBBEAN DEVELOPMENT BANK

Report on the Audit of the Financial Statements (Continued)

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Bank to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with the Oversight and Assurance Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Oversight and Assurance Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

INDEPENDENT AUDITOR'S REPORT

TO THE BOARD OF GOVERNORS OF CARIBBEAN DEVELOPMENT BANK

Report on the Audit of the Financial Statements (Continued)

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

From the matters communicated to the Oversight and Assurance Committee, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

This report is made solely to the Bank's members, as a body, in accordance with Article 38, sub-section 2 of the Agreement establishing the Caribbean Development Bank entered into force on January 26, 1970. Our audit work has been undertaken so that we might state to the Bank's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law and subject to any enactment or rule of law to the contrary, we do not accept or assume responsibility to anyone other than the Bank and the Bank's members as a body, for our audit work, for this report, or for the opinion we have formed.

The engagement partner in charge of the audit resulting in this independent auditor's report is Maurice Franklin.

CARIBBEAN DEVELOPMENT BANK ORDINARY CAPITAL RESOURCES NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 1 – NATURE OF OPERATIONS

Corporate structure

The Caribbean Development Bank (“CDB” or “the Bank”) is an international organisation established by an Agreement (“Charter”) signed in Kingston, Jamaica, on October 18, 1969 and accepted and ratified by all the member countries which are signatories thereto. The Charter is an international treaty which, together with the instruments of ratification and accession by member countries, is deposited with the United Nations Secretary-General. The Charter entered into force on January 26, 1970 and CDB commenced operations on January 31, 1970. Since then other countries have become members of CDB by acceding to the Charter.

The Bank’s headquarters is located in Wildey in the parish of Saint Michael in the island of Barbados.

Purpose and objectives

CDB is a regional financial institution established for the purpose of contributing to the harmonious economic growth and development of the member countries in the Caribbean (“Region”) and to promote economic cooperation and integration among them, with special and urgent regard to the needs of the less developed members.

Membership

The membership of the Bank is open to:

- (a) States and Territories of the Region;
- (b) Non-Regional States which are members of the United Nations or any of its specialised Agencies; or of the International Atomic Energy Agency.

The Bank’s members are classified as either of:-

- Borrowing member countries (“BMCs”) which comprise members of the Region that are qualified to borrow from the Bank.
- Non-regional members (“NRMs”) are comprised of members outside of the region that do not qualify to borrow from the Bank.

The BMCs are also shareholders of the OCR and are therefore considered related parties.

Reducing poverty in the region is CDB’s main objective and it finances development projects in its BMCs primarily through its Ordinary Capital Resources (“OCR”) which comprises shareholders’ paid-in capital, retained earnings and reserves and borrowings. In advancing this objective, the Bank participates in the selection, study and preparation of projects contributing to poverty reduction and, where necessary, provides technical assistance and support.

Special fund resources

Attainment of the Bank’s objectives are also supplemented by the Special Development Fund (“SDF”) and Other Special Funds (“OSF”) which comprise its Special Fund Resources (“SFR”) with distinct assets and liabilities and which are subject to different operational, financial and other rules as set out by the contributors (some of which are non-members of the Bank). The SFR is independently managed from, and has no recourse to, the OCR for obligations in respect of any of the liabilities of the SDF or OSF.

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 1 – NATURE OF OPERATIONS...continued

Mobilising financial resources is an integral part of CDB's operational activities, where alone or jointly, it administers funds restricted for specific uses such as technical assistance, grants and regional programmes. These funds are provided by donors, including members, some of their agencies and other development institutions.

NOTE 2 – ACCOUNTING POLICIES (GENERAL)

The current membership of the Bank is comprised of twenty-three (23) regional states and territories and five (5) non-regional states (2015: 23 regional states and territories and 5 non-regional states). A detailed listing of the membership is provided at Note 23(c) - Equity.

Accounting policies which are specific in nature are included as part of the disclosures that are relevant to the particular item in these Notes to the financial statements. The accounting policies that are of a general nature applied in the preparation of these financial statements are set out below:

Foreign currency translation

The functional and presentation currency of the Bank is the United States dollar. Monetary assets and liabilities in currencies other than United States dollars are translated into United States dollars at market rates of exchange prevailing at the reporting date. Non-monetary items measured at historical cost in currencies other than United States dollars are translated into United States dollars using the exchange rates at the dates of the initial transactions.

Foreign currency transactions are initially translated into United States dollars at applicable rates of exchange on the transaction dates. Any gains or losses arising as a result of differences in rates applied to income or expenses and to assets or liabilities are shown as an exchange gain or loss in the determination of net income for the year.

Taxation

Under the provisions of Article 55 of the Charter and the provisions of the Caribbean Development Bank Act, 1970-71 of Barbados, the Bank's assets, property, income and its operations and transactions are exempt from all direct and indirect taxation and from all custom duties on goods imported for its official use.

All policies have been consistently applied to the years presented, except where otherwise stated. Prior year comparatives have been adjusted or amended to conform with the presentation in the current year where applicable.

Basis of preparation

Statement of compliance

These financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) under the historical cost basis, except as modified by the revaluation of debt securities at fair value through profit or loss and derivative financial instruments (cross currency interest rate swaps and interest rate swaps) which are reflected at fair value. The financial statements are presented in United States dollars (USD) and all values are rounded to the nearest thousand, except where otherwise indicated.

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 2 – ACCOUNTING POLICIES (GENERAL)...continued

Basis of preparation...continued

Content of financial statements

The financial statements comprise the statement of financial position, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows and the notes to the financial statements for the year ended December 31, 2016 (the reporting date).

Presentation of financial statements

The presentation format of the Bank's statement of comprehensive income reflects the Operating income from the Bank's core activities. In the opinion of management, this enhances the information to the users of the Bank's financial statements as Operating income is the basis upon which the Bank's financial, liquidity, capital adequacy, efficiency and other performance ratios and measures are determined.

The Bank presents its statement of financial position in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 3.

Financial assets and financial liabilities are generally reported gross in the statement of financial position. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Bank and/or its counterparties

Derivative assets and liabilities with master netting arrangements (e.g. ISDAs) are only presented net when they satisfy the eligibility of netting for all of the above criteria and not just in the event of default.

Critical judgments and estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities. All estimates and assumptions required in conformity with IFRS are applied in accordance with the applicable standard. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Management's judgment for certain items that are especially critical for the Bank's results and financial situation due to their materiality is included in the relevant note disclosures in these financial statements, except as stated below:

Going concern

The Bank's management has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Bank's ability to continue as a going concern and therefore the financial statements continue to be prepared on this basis.

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 2 – ACCOUNTING POLICIES (GENERAL)...continued

New and amended standards and interpretations which are applicable to the Bank

The Bank applied for the first time certain standards and amendments, which are effective for the reporting period. The nature and the impact of each new standard and amendment is described below:

IAS 16 and IAS 38, Clarification of Acceptable Methods for Depreciation and Amortisation (Amendments) (Effective date January 1, 2016). These standards relate to the accounting treatment for Property, plant and equipment as well as intangible assets and had no impact on the Bank's financial statements.

Annual Improvements 2012 – 2014 cycle (Effective date January 1, 2016). Improvements were made to IFRS 5, IFRS 7, IAS 19 and IAS 34.

Standards in issue not yet effective and which are applicable to the Bank

The following is a list of standards and interpretations issued that are not yet effective up to the date of the issuance of the Bank's financial statements. The Bank intends to adopt these standards, if applicable, when they become effective. The impact of adoption depends on the assets held by the Bank at the date of adoption and it is therefore not practical to quantify the effect at this time.

- *IAS 7, Disclosure initiative - Amendments to IAS 7* (Effective January 1, 2017), relating to required disclosures on changes in liabilities arising from financing activities.
- *IFRS 9, Financial Instruments* (Effective January 1, 2018), relating to the classification and measurement of financial assets and liabilities, Hedge accounting and impairment.
- *IFRS 15, Revenue from contracts with customers* (Effective January 1, 2018), relating to the principles to be applied for the measurement and recognition of revenue
- *IFRS 16, Leases* (Effective January 1, 2019), related to the accounting and disclosure requirements for leases by lessees and lessors.

NOTE 3 – RISK MANAGEMENT

The Bank's principal financial liabilities, other than derivatives, comprise borrowings and trade and other payables, the main purpose of which is to finance the Bank's operations. The Bank also provides guarantees to its borrowers under set terms and conditions. The Bank's principal financial assets are loans, receivables, cash and short-term deposits and debt securities at fair value through profit and loss that are all derived directly from its operations. The Bank also holds derivative contracts and enters into derivative transactions when deemed necessary by senior management. All derivative activities for risk management purposes are to be undertaken by senior management in accordance with approved Board of Directors (BOD) policy which includes the provision that no trading in derivatives for speculative purposes may be undertaken.

The Bank's BOD sets the governance framework for the Bank by setting the risk and risk appetite framework, and the underlying policies and procedures. Financial risk activities are governed by the policies and procedures and financial risks are identified, measured and managed in accordance with the Bank's approved policies and risk objectives.

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 3 – RISK MANAGEMENT...continued

The ability to manage these risks is supported by an enterprise wide risk management framework which was approved by the Board of Directors. Operationally, CDB seeks to minimise its risks via the implementation of robust mitigating controls aimed at reducing exposure to achieve adherence to approved risk appetite portfolio limits. The Bank's risk mitigation approaches include adopting processes, systems, policies, guidelines and practices which are reviewed and modified periodically in line with the institution's changing circumstances.

The Bank's Office of Risk Management (ORM) manages, coordinates, monitors and reports on the mitigation of all risks that the Bank faces including additional risks such as strategic, financial, operational, and reputational risks. The ORM also has the responsibility for recommending and implementing new or amended policies and procedures for effective risk management to the BOD for approval and to ensure that risk awareness is embedded within the Bank's operations and among the Bank's employees. CDB's risk management framework is built around its governance, policies and processes. The risk management governance structure supports the Bank's senior management in their oversight function in the coordination of different aspects of risk management.

The Bank's governance is built around the following committees:

- (i) The Enterprise Risk Committee (ERC);
- (ii) The Loans Committee (LC);
- (iii) The Oversight and Assurance Committee (OAC) and
- (iv) The Advisory Management Team (AMT).

The Office of Institutional Integrity, Compliance and Accountability (ICA) was established to operationalise the strategic framework for integrity, compliance and accountability. ICA is responsible for managing institutional integrity, compliance, anti-money laundering (AML), countering the financing of terrorism (CFT) and financial sanctions, ethics, whistleblowing, and project accountability.

The Board of Directors also approved a Code of Conduct for the Board of Directors, and a new Charter for the Internal Audit Division (IAD).

The Bank is exposed to market risk, credit risk, liquidity risk and operational risk which is overseen by its senior management through established committees with defined roles and responsibilities. Market risk includes currency, interest rate and price risk. The most important types of risk faced by CDB are associated with the borrowing member countries and relate to country credit risk and concentration risk.

The Bank manages limits and controls concentration of credit risk in relation to loans, debt securities, cash and investments, derivative and borrowing counterparties based upon policies approved by the BOD. These financial policies limit the amount of exposure in relation to a single borrower and to groups of borrowers, by counterparties and by type of investments and they are monitored on a monthly basis.

**CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS**

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 3 – RISK MANAGEMENT...continued

Credit risk

A major risk to CDB as a multilateral development bank is its exposure to country credit risk. This risk relates to potential losses in the event that a borrowing member is unable or unwilling to service its obligations to the Bank. CDB manages its country credit risk through its financial policies and lending strategies, including the setting of individual country exposure limits and evaluation of overall creditworthiness. Individual BMC exposure to the Bank on outstanding loans as at December 31, 2016 is reported in Note 3 and Note 10.

The Bank manages its credit risk in liquid funds and derivative financial instruments by ensuring that all individual investments carry a minimum credit rating as follows:

	Standard & Poor's	Moody's Investors Service
Commercial bank obligations	A-	A3
Government obligations	AA-	Aa3

Additionally, CDB can invest in non-freely convertible currencies in unconditional obligations issued or guaranteed by indigenous commercial banks provided that no such bank holds more than \$1 million of the investible amount of the given currency or 10% of CDB's capital, whichever is smaller. In relation to derivative transactions, all counterparties must have a minimum rating of BBB/Baa2 (by Standard & Poor's and Moody's respectively), with a minimum rating for new transactions of A-/ A3 (stable outlook by Standard & Poor's and Moody's respectively).

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 3 – RISK MANAGEMENT ...continued

Credit risk...continued

Credit risk measurement

The Bank assesses borrowers based upon their external credit ratings. For borrowers without an external rating, judgment and bench-marking against similar credits are used to assign an appropriate internal rating. Borrowers are segmented into four rating classes. The rating scale, shown below, reflects the range of default probabilities defined for each rating class and related exposures can migrate between classes based on the results of the re-assessments of their probability of default.

Internal rating scale and mapping of external ratings are as follows:

CDB's Rating	Description of the grade	External rating: Standard & Poor's equivalent
1	Basic monitoring	AAA, AA+, AA, AA- A+, A-
2	Standard monitoring	BBB+, BBB, BBB-, BB+, BB, BB-, B+, B, B-
3	Special monitoring	CCC to C
4	Sub-standard	D

The ratings of the major rating agency shown in the table above are mapped to the rating classes based on the long-term average default rates for each external grade. External ratings where available, are used to benchmark the internal credit risk assessment. Observed defaults per rating category vary year on year, especially over an economic cycle.

Risk limit control and mitigation measures

Loans

Currently the approved exposure limit to the single largest borrower is 40% of total outstanding loans or 50% of total available capital, whichever is greater. The limit for the three largest borrowers is 60% of total outstanding loans or 90% of total available capital whichever is greater.

	2016	2015
Single largest borrower's exposure to total outstanding loans	20.8%	22.8%
Three largest borrowers' exposure to total outstanding loans	40.9%	45.5%

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 3 – RISK MANAGEMENT ...continued

Credit risk...continued

Risk limit control and mitigation measures ...continued

Cash and cash equivalents and Debt securities through profit and loss

The Bank's results as at December 31st against the BOD approved policy ratios were as follows:

Investment Type	Maximum policy limit (based upon total investment portfolio)	2016	2015
Single entity	10%	7.2%	7.4%
US Treasury or US Government Agency	35%	35.0%	28.7%
Commercial entity	50%	21.1%	28.3%

Credit related commitments

Guarantees and standby letters of credit represent irrevocable assurances that the Bank will make payment. The primary purpose of these instruments is to ensure that funds are available to a borrower as required. The Bank currently has guarantees not exceeding the equivalent of \$12.0 million with respect to bonds issued by the Government of St. Kitts and Nevis (GOSKN).

Master netting arrangements

All of the Bank's derivatives are executed under International Swap Dealers' Association (ISDA) agreements and the Schedule to the Master Agreement in order to limit exposure to credit risk through the provisions in these agreements for offsetting of amounts due to or by both counterparties. Under the provisions of these agreements both parties compute amounts owing to and by each other and the party with net amount owing makes payment to the second party. The ISDA and related Schedule also makes provision for the voluntary netting of currencies and transactions and for the computation methodology of and settlement of final net payment in the event of termination. CDB currently is party to six swaps with four counterparties.

NOTE 3 – RISK MANAGEMENT ...continued

Credit risk...continued

Maximum exposure to credit risk before collateral held or other credit enhancements

Credit risk exposure relating to assets included on the statement of financial position is as follows:

As at December 31	2016	2015
Cash and cash equivalents	\$94,207	\$65,412
Debt securities at fair value through profit or loss	340,318	213,765
Sovereign loans outstanding	992,587	962,259
Non-sovereign loans outstanding	24,339	30,271
Derivative financial instruments	58,663	56,251
Non-negotiable demand notes	45,682	45,746
Maintenance of value on currency holdings	5,769	4,606
Subscriptions in arrears	6,866	5,590
Receivables	6,084	11,130
	<hr/> 1,574,515	<hr/> 1,395,030
<i>Commitments</i>		
Undisbursed sovereign loan balances	373,094	322,965
Undisbursed non-sovereign loan balances	14,031	14,097
Commitments	15,000	6,000
Guarantees	12,000	12,000
	<hr/> 414,125	<hr/> 355,062
	<hr/> \$1,988,640	<hr/> \$1,750,092

The above table represents a worst case scenario of credit risk exposure as at December 31, 2016 and 2015, without taking account of any collateral held or other credit enhancements attached.

The Bank's policy in relation to collateral is disclosed in Note 10 to these financial statements.

For assets included on the statement of financial position, the exposures set out above are based on gross carrying amounts as reported in the statement of financial position. As shown, the total maximum exposure from loans and commitments to the sovereign was 68.6% (2015: 73.4%), and to the non-sovereign was 1.9% (2015: 2.5%).

Credit quality

Debt securities, treasury bills and other eligible bills

The main investment management objectives are to maintain capital preservation and liquidity. Subject to these parameters, CDB seeks the highest possible return on its investments. CDB's Investment Policy restricts its investments to government and government-related debt instruments and time deposits. Investments may also be made in unconditional obligations issued or guaranteed by commercial banks rated A-/A3, or better, AAA rated asset-backed securities, and AAA-rated mortgage-backed securities. Adherence to the investment policy guidelines is monitored on a continuous basis by the ERC.

The following tables present an analysis of the credit quality of debt securities, treasury bills and other eligible bills, neither past due nor impaired based on Standard & Poor's rating or equivalent, as of December 31, 2016 and 2015.

	2016				Total
	AAA	AA+ to AA-	Ratings A+ to A-	BBB+ to BBB-	
Obligations guaranteed by Governments ¹	\$63,129	\$154,067	\$5,072	\$-	\$222,268
Time Deposits	-	24,975	8,782	1,330	35,087
Sovereign Bonds	2,004	-	-	-	2,004
Supranational Bonds ²	78,012	2,947	-	-	80,959
	\$143,145	\$181,989	\$13,854	\$1,330	\$340,318

	2015				Total
	AAA	AA+ to AA-	Ratings A+ to A-	BBB+ to BBB-	
Obligations guaranteed by Governments ¹	\$49,397	\$76,962	\$5,036	\$-	\$131,395
Time Deposits	-	4,974	21,478	1,324	27,776

NOTE 3 – RISK MANAGEMENT ...continued

Credit risk...continued

Credit quality...continued

Debt securities, treasury bills and other eligible bills...continued

In accordance with the Bank's internal rating scale 99.6% (2015: 99.4%) of debt securities, treasury bills and other eligible bills are classified as 'Basic monitoring'. The residual securities are rated as 'Standard monitoring'.

Loans and advances

Loans are summarised as follows:

	December 31, 2016		December 31, 2015	
	Sovereign	Non-sovereign	Sovereign	Non-sovereign
Neither past due nor impaired	\$992,587	25,588	\$962,259	\$31,219
Past due but not impaired	-	-	-	-
Impaired	-	5,060	-	5,361
Gross	992,587	30,648	962,259	36,580
Less: allowance for impairment	-	(6,309)	-	(6,309)
Net	\$992,587	\$24,339	\$962,259	\$30,271

As of December 31, 2016, loans that were neither past due nor impaired represented 99.6% (2015: 99.5%) of gross loans outstanding.

Loans and advances neither past due nor impaired

The credit quality of the loan portfolio that was neither past due nor impaired can be assessed by reference to the internal rating system adopted by the Bank.

	2016		
	Sovereign	Non-Sovereign	Total Loans
Basic monitoring	\$39,347	\$1,380	\$40,727
Standard monitoring	481,802	-	481,802

Credit risk...continued

Risk concentration of financial assets with exposure to credit risk

Concentrations of risk arise from financial instruments that have similar characteristics and are affected similarly by changes in economic or other conditions. The Bank manages risk concentration by counterparty and geography.

Geographical sectors

The following table presents CDB's main credit exposures at their carrying amounts, as categorised by BMC and non-regional members, USA, and other countries. For this table, the exposures are allocated to regions based on the country of domicile of the counterparties. A further analysis of the Bank's exposure to loans by geographical region is provided at Note 10.

	2016

Market risk

CDB takes on exposure to market risks, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. CDB is exposed to two types of market risk - foreign currency risk and interest rate risk. Financial instruments affected by market risk include loans, debt securities at fair value through profit or loss, borrowings and derivative financial instruments.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Bank manages foreign currency risk by ensuring that all loans by the Bank are made either from currencies available from members' subscriptions or from currencies borrowed, and the principal amounts are repayable to the Bank in the currencies lent. It also manages this risk by entering into currency swaps. The following table summarises the exposure to foreign currency exchange rate risk. Included in the table are the financial instruments at carrying amounts, categorised by currency.

All of the Bank's loans are denominated in United States dollars.

Foreign currency sensitivity

In calculating these sensitivities management made the assumptions that the sensitivity of the relevant item within profit or loss is the effect of the assumed changes in respect of market risks based on the financial assets and liabilities at the reporting period.

The Bank entered into currency swap agreements by which proceeds of two Yen denominated borrowings were converted into US dollars in order to hedge against ongoing operational currency risks.

The following is the estimated impact on profit or loss that would have resulted as a result of management's estimate of reasonable possible changes in the Yen exchange rate:

<u>Exchange rate movements</u>	Effect on profit or loss	
	(Income)/ Expense	
	2016	2015
Increase of 5%	\$(13,753)	\$(3,892)
Decrease of 5%	\$2,500	\$11,904
Increase of 10%	\$20,772	\$(10,713)
Decrease of 10%	\$11,982	\$21,119

The Bank entered into a currency swap agreement by which proceeds of one Swiss Franc denominated borrowing was converted into US dollars in order to hedge against ongoing operational currency risks.

The following is the estimated impact on profit or loss that would have resulted as a result of management's estimate of reasonable possible changes in the Swiss Franc exchange rate:

<u>Exchange rate movements</u>	Effect on profit or loss	
	(Income)/ Expense	
	2016	2015
Increase of 5%	\$(6,089)	\$-
Decrease of 5%	\$8,181	\$-
Increase of 10%	\$(12,252)	\$-
Decrease of 10%	\$16,506	\$-

The 'Other' currency category comprises various individual currencies which management does not consider to be material and sensitivity analysis has therefore not been applied.

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 3 – RISK MANAGEMENT...continued

Market risk...continued

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rate will affect future cash flows on the fair value of financial instruments. CDB manages its interest rate exposure by ensuring that the changes in the cash flow of its assets closely match those of its liabilities. This relationship is maintained by the use of interest rate swaps which converts, its liabilities from fixed rate into floating rate obligations.

The following table summarises the exposure to interest rate risks including financial instruments at carrying amounts, categorised by the earlier of contractual repricing or maturity dates.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 3 – RISK MANAGEMENT ...continued

Market risk ...continued

Interest rate sensitivity

All other variables held constant (and excluding the effects of the derivative instruments), if interest rates had been 50 bps higher, net income for the year would have increased by \$3,782 (2015: \$3,568). Had interest rates been 50 bps lower, net income would have declined by the same amount.

All other variables held constant if interest rates had been 50 bps higher, the impact of the derivatives would have caused a decrease of \$23,356 (2015: \$12,563) in the net income for the year and an increase of \$21,992(2015: \$13,304) if 50 bps lower.

The sensitivity analyses have shown the exposure to interest rates for both derivatives and non-derivative instruments at the reporting date. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the reporting date was outstanding for the whole year. The 50 bps movement represents management's assessment of a reasonable possible change in interest rates.

Liquidity risk

Liquidity risk relates to the probability that the Bank will be unable to meet the payment obligations associated with its financial liabilities when they fall due. The consequence may be the failure to meet obligations or to disburse on its commitments. This risk is managed by conformity to the Bank's policy of maintaining a net three years' funding requirement of \$48 million (2015: \$48 million) or 40% of undisbursed loan commitments and loans not yet effective (comprising loans approved by the BOD for which all conditions precedent have not yet been met) of \$534 million (2015: \$473 million), whichever is greater.

The Bank holds a diversified portfolio of cash and securities to support payment obligations and contingent funding in the event of a highly stressed market environment. The Bank's assets held for managing liquidity risk comprise:

- Cash and balances with commercial banks;
- Time deposits;
- Government bonds and other securities that are easily traded; and
- Secondary sources of liquidity including a line of credit with a commercial bank.

Fair value of financial assets and liabilities

Fair value hierarchy

IFRS 13 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Bank's market assumptions. These two types of inputs have created the following fair value hierarchy:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included in Level 1 for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Capital Management

CDB's objectives when managing capital, which is a broader concept than "equity" on the face of the statement of financial position, are to:

- (i) Safeguard the Bank's ability to continue as a going concern; and
- (ii) Maintain a strong capital base to support its development activities.

The Bank's capital adequacy framework which is consistent with the guidelines developed by the Basel Committee takes into account the Bank's total equity, which is defined as paid-up capital, retained earnings and reserves, less receivables from members, the effects of derivative adjustments and the General Banking Reserve. The goals of the Bank's capital adequacy are to:

- (i) Ensure a reliable framework and methodology to determine the appropriate levels of economic capital that the Bank should carry for prudential purposes; and
- (ii) Determine from time to time the appropriate changes in the level of economic capital that the Bank must have, based on changes in the risk profile of its credit exposures.

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 3 – RISK MANAGEMENT...continued

Capital Management...continued

The Bank’s enhanced capital adequacy framework is supported by an income targeting policy that would enable the Bank not only to safeguard, but also to strengthen its level of capitalisation and to meet its commitments. The new policy requires the Bank to maintain available capital (as defined in the Bank’s Board approved policy) at a minimum level of 150% of baseline economic capital (comprising a methodology for calculating capital requirements based on the types and levels of risks, such as borrower defaults, operational losses, or market changes).

As at December 31, 2016 the Bank’s available capital was 209.8% (2015: 216.5%) of its economic capital.

No changes were made in the objective, policies or processes for managing capital during the year ended December 31, 2016.

NOTE 4 – SEGMENT ANALYSIS & REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker which is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. Under Article 33.4 of the Bank’s Charter, the President is the Chief Executive Officer (CEO) and is required to conduct, under the direction of the Board of Directors (BOD) the business of the Bank.

In accordance with IFRS 8 the Bank has one reportable segment, its OCR, since its operations are managed as a single business unit and it does not have multiple components for which discrete financial information is produced and reviewed by the chief operating decision maker for performance assessment and resource allocation.

The following table presents CDB’s outstanding loan balances inclusive of accrued interest and net of impairment provisions as of December 31, 2016 and 2015, and associated interest income by countries which generated in excess of 10% of the loan interest income for the years ended December 31, 2016 and 2015:

Country	Interest income		Loans outstanding	
	2016	2015	2016	2015
Jamaica	\$6,464	\$8,487	\$212,454	\$227,535

	\$32,127	\$37,730	\$1,016,926	\$992,530

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 5 – FINANCIAL ASSETS

In accordance with IAS 39, the Bank categorizes its assets as follows: financial assets at fair value through profit or loss, or loans and receivables. Financial assets are recognised on the statement of financial position when the Bank assumes related contractual rights. Management determines the classification of its financial instruments at initial recognition.

Regular way purchases and sales of financial assets are recognised on the settlement date which is the date the Bank becomes a party to the contractual provisions of the instrument.

Initial recognition and measurement of financial assets

All financial assets are recognised initially at fair value plus, in the case of loans and receivables, directly attributable transaction costs which are related to the acquisition of the financial asset.

Subsequent measurement

Financial assets at fair value through profit or loss

This category has two sub-categories: financial assets held for trading and those designated at fair value through profit or loss at inception.

A financial asset is classified as held for trading if it is acquired principally for the purpose of selling in the near term or if it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. Derivatives are categorised as held for trading unless they are designated as hedging instruments. For more information on ‘*Derivatives*’ refer to Note 14.

Financial assets designated at fair value through profit or loss upon initial recognition are managed, evaluated and reported to management on a fair value basis. Once the asset has been so classified, it cannot be changed. Financial instruments in this category are included in the statement of financial position as ‘*Debt securities at fair value through profit or loss*’ representing all of the Bank’s investments. For more information on ‘*Debt securities at fair value through profit or loss*’ refer to Note 7.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value presented as ‘*Derivative fair value adjustments*’ in the statement of comprehensive income in the period during which they arise. Income and expenditures related to derivative financial instruments are shown as ‘*Net interest income from derivatives*’ in the statement of comprehensive income and are detailed in Note 24(c).

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in ‘*Interest and similar income*’ in the statement of comprehensive income. The losses arising from impairment are recognised in the statement of comprehensive income in ‘*Provision for loan impairment*’ for loans and in ‘*Administrative expenses*’ for receivables.

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 5 – FINANCIAL ASSETS...continued

This category applies to ‘*Loans outstanding*’ and ‘*Receivables from members*’ and generally applies to receivables. For more information on these balances refer to Note 8 - Note 13.

Fair Value Measurement

The Bank measures financial instruments such as those designated at fair value through profit and loss and derivatives at fair value at each reporting date. Fair value related disclosures for financial instruments and non-financial assets that are measured at fair value or those for which only fair values are disclosed, are itemised in Note 3 – *Risk Management – “Fair value of financial assets and liabilities”*.

For financial instruments traded in active markets, the determination of fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset takes place either in the principal market for the asset or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or most advantageous market must be accessible to the Bank.

The fair value of an asset is measured using the assumptions that market participants would use when pricing the asset assuming that the market participants are acting in their economic best interest.

The Bank uses widely recognised valuation models for determining fair values of non-standardised financial instruments for which the inputs into models are generally market-observable. Models are also used to determine the fair value of financial instruments that are not quoted in active markets. All models are calibrated to ensure that outputs reflect actual data and comparative market prices. To the extent practical, models use only observable data; however, consideration of inputs such as credit risks, liquidity risks, volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Financial assets are allocated within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole.

For assets that are recognised in the financial statements on a recurring basis, the Bank determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Renegotiated loans

It is not the Bank’s policy to renegotiate sovereign loans. In respect of its non-sovereign portfolio the Bank seeks to restructure loans in preference to taking possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions. Once terms have been renegotiated any impairment is measured using the original effective interest rate as calculated before the modification of terms and the loan is no longer considered past due. Management continuously reviews renegotiated loans (if any), to ensure that all criteria are met and that future payments are likely to occur.

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 5 – FINANCIAL ASSETS...continued

Provision for loan impairment

Management assesses at each reporting date (at a minimum), whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a “loss event”) and that loss event (or events) has/have an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. Objective evidence that a financial asset or groups of financial assets is/are impaired includes observable data that comes to the attention of the Bank about the following loss events including:

- (i) significant financial difficulty of the issuer or obligor;
- (ii) a breach of contract, such as a default or delinquency in interest or principal payments;
- (iii) the Bank granting to the borrower, for economic or legal reasons relating to the borrower’s financial difficulty, a concession that the Bank would not otherwise consider;
- (iv) it becoming probable that the borrower will enter bankruptcy or other financial re-organisation;
- (v) the disappearance of an active financial market for that financial asset because of financial difficulties;
- or
- (vi) observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including:
 - adverse changes in the payment status of borrowers; or
 - national or local economic conditions that correlate with defaults on the assets in the portfolio.

Management first assesses whether impairment exists for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Bank determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The methodology used for assessing collective impairment takes into account the Bank’s preferred creditor treatment afforded by its borrowing members. This provision is calculated on a methodology which combines the external credit ratings of the borrowers, the probability of default related to those ratings, the loss given default based on CDB’s historical loss experience and the exposure at default. The methodology is applied to both sovereign and non-sovereign loans.

A provision for loan impairment is established if there is objective evidence that the Bank will not be able to collect all amounts due according to the original contractual terms of loans (the “incurred loss” basis).

The amount of the provision is the difference between the assets’ carrying value and the present value of expected cash flows including amounts recoverable from guarantees and collateral, discounted at the financial asset’s original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the statement of comprehensive income.

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 5 – FINANCIAL ASSETS...continued

Provision for loan impairment...continued

When a loan is deemed uncollectible, it is written off against the related impairment provisions. If, in a subsequent period, the amount of the impairment loss decreases, and the decrease can be related objectively to an event after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the provision amount and the amount of the reversal is recognised in the statement of comprehensive income.

Because of the nature of its borrowers and guarantors, Management expects that all of its sovereign and sovereign guaranteed loans will be repaid in full. The OCR has had a fully performing sovereign and sovereign guaranteed loan portfolio since its inception in 1970.

Once a financial asset or a group of financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The estimated future cash flows projected in the effective interest rate method consider all contractual terms but do not consider future credit losses that have not yet been incurred.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily de-recognised (i.e., removed from the statement of financial position) when:

- (i) The rights to receive cash flows from the asset have expired; or
- (ii) The Bank has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement; and either:
 - (a) the Bank has transferred substantially all the risks and rewards of the asset; or
 - (b) the Bank has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Bank has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Bank continues to recognise the transferred asset to the extent of the Bank’s continuing involvement. In that case, the Bank also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Bank has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Bank could be required to repay.

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 6 – CASH AND CASH EQUIVALENTS

For the purposes of the statement of cash flows, cash and cash equivalents comprise balances with maturities of three months or less from the date of acquisition which are subject to an insignificant risk of changes in value. Cash and cash equivalents include cash, treasury bills and other eligible bills, amounts due from other banks and short-term government securities.

(a) Cash and cash equivalents comprise the following balances:

	<u>2016</u>	<u>2015</u>
Due from banks	\$60,239	\$19,829
Time deposits	33,968	45,583
	<u>\$94,207</u>	<u>\$65,412</u>

Due from banks includes cash and inter-bank placements. Time deposits included here have a maturity date of 90 days or less from the date of purchase. The estimated fair value of floating rate placements and overnight deposits is their carrying value.

ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 8 – RECEIVABLES AND PREPAID ASSETS

The accounting policy for receivables is as defined at Note 5.

Prepaid assets are not financial assets. These are recorded as assets on the statement of financial position when cash is paid and expensed to profit and loss over the relevant contract term.

Due to the short-term nature of receivables and prepaid assets, fair value is assumed to be equal to carrying value.

Receivables and prepaid assets comprise the following:

	2016	2015
Inter-fund receivable – Note 28	\$4,472	\$8,759
Staff loans and other receivables	508	752
Value added tax receivable	817	1,373
Institutional receivables	287	246
Prepaid assets	258	266
	<hr/> \$6,342	<hr/> \$11,396

During the year, no provision for impairment (2015: nil) was recorded as none of the above receivables was deemed to be impaired.

NOTE 9 – CASH COLLATERAL ON DERIVATIVES

The Bank attempts to reduce counterparty credit exposure in derivative transactions through bilateral collateral requirements. Under these arrangements collateral is not required to be posted until an agreed threshold is reached. When the threshold is reached collateral is required only for the exposure in excess of the threshold. When the Bank's derivative is in a liability position, it posts collateral to the counterparty and records the collateral posted as an asset receivable. When the Bank's derivative is in a receivable position, it receives collateral from the counterparty and records the collateral received as a liability.

During the year, the Bank undertook a currency swap with Credit Suisse International AG to convert \$145 million CHF to USD at a fixed exchange rate on a fixed date and to exchange a fixed interest rate of 0.297% for a floating rate at USD Libor. As at December 31, 2016, the Bank had to post collateral of \$11.650M to Credit Suisse International in respect of this cross currency interest rate swap. Interest on this account is calculated at the daily US Federal Funds rate. Interest accrued for the year was \$5K.

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 10 – LOANS OUTSTANDING

Loans outstanding are financial assets as defined in Note 5.

The Bank's loan portfolio comprises loans granted to, or guaranteed by, its Borrowing Member Countries and are disbursed and repaid in US Dollars. The amount repayable in each of these currencies shall be equal to the amount disbursed in the original currency. Loans are granted for a maximum period of twenty-two years, including a grace period, which is typically the period of the project implementation. Loans are for the purpose of financing development projects and programmes and are not intended for sale. Interest rates are reset semi-annually. The interest rate prevailing as at December 31, 2016 was 2.97% (2015: 3.43%).

For 2016 and 2015, the estimated fair values are based on discounted cash flow models using an estimated yield curve appropriate for the remaining term to maturity. The loans are evaluated based on parameters such as interest rates, specific country risk factors and individual credit worthiness.

Collateral

CDB does not take collateral on its sovereign loans. The Loans (CDB) Acts or other applicable legislation are enacted in the various BMCs and authorise the governments to raise loans from CDB or guarantee loans provided by CDB to statutory authorities. They also provide for repayment of any loan made by CDB to the Government or to any statutory corporation, to be charged upon and paid out of the consolidated fund. CDB also derives comfort from the negative pledge condition included in its loan agreements which prohibits, except with CDB's written consent, the charging of Government assets to secure external indebtedness unless CDB is equally and ratably secured. Furthermore, CDB continues to be accorded preferred creditor treatment (PCT) by its BMCs by which, in applicable circumstances, the Bank's loans are not included in any debt rescheduling arrangements of its BMCs and the Bank is also given preferential access to foreign currency.

With respect to non-sovereign loans, CDB requires its commitments to be secured, the nature and extent of which will be determined on a case-by-case basis. In addition to security pledged by the borrower, the security against the non-sovereign loans, where applicable, also comprises that pledged against sub-loans (comprising loans on-lent by the borrower in accordance with terms of the original loan agreement) assigned to trusts that are managed by the borrower at no cost to CDB. The fair value of the security pool is the future expected cash flows of the sub-loans discounted by a current market interest rate reflective of the risk of the borrowers. Marketable assets secure direct loans to the non-sovereign, while the fair value is the observable market price of the asset.

The fair value of the collateral held (off-balance sheet) for the impaired non-sovereign loans was estimated at approximately \$7,200 (2014: \$7,200). This is comprised of the fair value of sub-loans and the Bank's portion of the estimated realisable value of a property.

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 10 – LOANS OUTSTANDING...continued

- (c) As at December 31, 2016, two loans relating to one borrower in the non-sovereign loan portfolio were assessed as impaired (2015: two). A specific provision for impairment has been made representing the full amounts outstanding. Based on the collective assessment and methodology as applied to the sovereign and non-sovereign loan portfolio, no additional collective provision for impairment was required (December 2015: \$ Nil).

Reconciliation of the allowance account for impairment on loans is as follows:

	<u>2016</u>	<u>2015</u>
Balance at January 1 and December 31	<u>\$6,309</u>	<u>\$6,309</u>
Individual impairment	\$5,459	\$5,459
Collective impairment	850	850
Balance at December 31	<u>\$6,309</u>	<u>\$6,309</u>

- (d) The Bank also maintains a General banking reserve of \$7,006 (2015: \$7,006) classified in equity – Refer to Note 23(f).

NOTE 11 – NON-NEGOTIABLE DEMAND NOTES

Policy

Non-negotiable demand notes are financial assets as defined in Note 5.

Under the Charter provisions the Bank shall accept, in place of any part of the members' currency paid or to be paid with respect to capital subscriptions, promissory notes issued by the Government of the member or by the depository designated by the member, subject to such currency not being required by the Bank for the conduct of its operations. These notes are non-negotiable, non-interest bearing and payable at their par value on demand and are thus classified as current assets. Their fair value is therefore estimated to be their carrying value.

As at December 31, 2016 the non-negotiable demand notes amounted to \$45,682 (2015: \$45,746).

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 12 – MAINTENANCE OF VALUE (MOV) ON CURRENCY HOLDINGS

MOV receivables are financial assets as defined in Note 5.

In order to ensure that receipts for capital subscriptions originally paid in currencies other than US dollars retain at a minimum their value as determined in accordance with Article 24 of the Charter, each member is required to maintain the value of its currency held by the Bank. If in the opinion of the Bank, the value of a Member's currency depreciates or appreciates to a significant extent, the Bank or Member may be required to repay an amount of currency equal to the increase or decrease in the value of its currency which is held by the Bank in respect of capital subscriptions. For the purposes of effecting settlement, MOV obligations are established at December 31 in each year.

The Board of Directors has agreed that MOV obligations on any part of a member's paid-up capital which is represented by loans outstanding be postponed and become payable on each portion of the principal of such loans when such portion is repaid to the Bank. MOV obligations that are not so deferred are due for settlement within 12 months of the date established. The regime approved by the Board with respect to MOV payments does not allow for the making of MOV payments by the Bank where circumstances are unfavorable to the Bank. In particular it permits the offsetting of Notes and will allow the encashment of Notes only with the prior and specific approval of the Board.

Member countries, whose currencies do not have a fixed relationship with the US dollar but for which there have been adjustments to the exchange rate, are obliged to maintain the value of their currencies in respect of capital contributions if such currencies depreciate. These adjustments are made to maintain the value of the member's subscriptions received by the Bank and is based on the prevailing exchange rates at the end of each reporting period, therefore reflecting fair value and can constitute a liability of the member or the Bank.

As at December 31, 2016, the amount of \$5,769 was due by certain members (2015: \$4,606) and at the reporting date, no amounts were due by the Bank (2015: Nil).

NOTE 13 – SUBSCRIPTIONS IN ARREARS

Subscriptions in arrears are financial assets as defined in Note 5.

Member countries are required to meet their obligations for paid-in shares over a period determined in advance and in the case of the last approved General Capital Increase in 2010 comprises six instalments. The amount of \$6,866 (2015: \$5,590) represents amounts that are due and not yet paid by certain members.

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 14 – DERIVATIVE FINANCIAL INSTRUMENTS

The accounting policy is as defined at Note 5.

The Bank is party to three cross currency interest rate swaps. Two swaps were used to transform underlying fixed rate borrowings in Japanese Yen to floating rate obligations in United States dollars. One of these swaps has subsequently been modified to reinstate fixed rate exposure, at a rate lower than that of the original underlying note. The two fixed rate Japanese Yen notes which mature in 2022 and 2030 carry interest rates of 2.75% and 4.35%, respectively. The principal amounts due on maturity are in Japanese Yen, while the interest payments are due in United States dollars.

A cross currency interest rate swap was also executed in July 2016 related to a bond issue of 145 million Swiss Francs. The swap was used to transform the underlying 0.297% fixed rate borrowing in Swiss Francs to floating rate obligations in United States Dollars. The swap matures concurrently with the borrowing in 2028.

Counterparties to derivative contracts are selected in accordance with the Bank's approved policy. In accordance with this policy, engaging in speculative activities are prohibited and all derivative financial instruments are held to maturity but may be terminated in those instances where the contract no longer satisfies the purpose for which it was intended, or is detrimental to the Bank's profitability in any way.

Derivatives are recorded at fair value and carried as assets when their fair value is positive and as liabilities when it is negative. The fair values of derivative financial instruments held at December 31, were as follows:

	Notional Amount	2016	2015
		Fair values	
Derivative financial asset			
Cross currency interest rate swaps	\$163,220	\$48,685	\$39,811
Interest rate swaps	\$300,000	\$9,184	\$16,440
Bilateral non-performance risk adjustment		794	
		\$58,663	\$56,251
Derivative financial liability			
Cross currency interest rate swaps	\$151,341	\$23,429	\$-
Bilateral non-performance risk adjustment		(1,390)	-
		\$22,039	\$-

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 15 – NON-CURRENT ASSETS HELD FOR SALE

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Non-current assets are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition, management has committed to the sale, and the sale is expected to have been completed within one year from the date of classification.

Property and equipment once classified as held for sale are not depreciated.

Non-current assets held for sale are recorded at their carrying amount of \$572K and represent property comprising a building and land for which buyers were solicited on the open market during the year. The estimated fair value of the property as at December 31, 2016 was \$1.72M. It is expected that a sale will be concluded during 2017.

NOTE 16 – PROPERTY AND EQUIPMENT

Property and equipment is stated at historical cost less accumulated depreciation. Historical cost includes expenditures that are directly attributable to the acquisition of the assets.

Land totaling 2.2. hectares and buildings were conveyed to the Bank by the Government of Barbados in 1983. These assets are not accounted for by the Bank and therefore do not form part of the Bank's financial records.

Subsequent costs are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be reliably measured. All repairs and maintenance are charged to operating expenses during the financial year in which they are incurred.

Land is not depreciated as it is deemed to have an indefinite life.

Depreciation of other assets is computed on the straight-line basis at rates considered adequate to write-off the cost of these assets over their useful lives as follows:

	Years
Buildings and ancillary works	15-25
Furniture and equipment	4-8
Computers	4
Motor vehicles	4

The assets' residual value and useful lives are reviewed and adjusted if appropriate at each reporting date. Assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount. The asset's recoverable amount is the higher of the impaired asset's fair value less costs to sell and its value in use.

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 17 – FINANCIAL LIABILITIES

Financial liabilities are recognised on the statement of financial position when the Bank becomes a party to the contractual provisions of an instrument. Management determines the classification of its financial instruments at initial recognition.

The Bank's financial liabilities include accounts payable, subscriptions received in advance and borrowings. Further information is included at Notes 18, 19 and 22 respectively. All financial liabilities are recognised initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs. After initial recognition, the fair value option is not applied and interest-bearing borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in profit and loss when the liabilities are de-recognised. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as a borrowing expense in the statement of comprehensive income. This category generally applies to interest-bearing borrowings.

Fair value measurement

Fair value disclosures for financial liabilities are contained in Note 3 – *Risk Management* - “*Fair value of financial assets and liabilities*”. Fair value is determined using valuation techniques in which fair values are estimated from observable data in respect of similar financial instruments, using models to estimate the present value of future cash flows, or other valuation techniques using inputs.

The Bank uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimising the use of unobservable inputs.

De-recognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of comprehensive income.

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 18 – ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

The accounting policy for accounts payable is as defined at Note 17.

Accrued liabilities are not financial liabilities. These are recorded as liabilities on the statement of financial position when the OCR has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

Due to the short-term nature of these liabilities with no stated maturity, fair value is assumed to be equal to carrying value which is the amount payable on demand.

The carrying values of accounts payable and accrued liabilities is as follows:

	<u>2016</u>	<u>2015</u>
Accounts payable	\$228	\$3,312
Accrued liabilities	2,793	4,191
	<u>\$3,021</u>	<u>\$7,503</u>

NOTE 19 – SUBSCRIPTIONS IN ADVANCE

The accounting policy is as defined at Note 17.

Payment of the amount due in respect of paid-up shares initially subscribed by a state or territory which is a member of the Bank is required to be made in six instalments. Amounts paid in advance of the due dates by certain members was fully extinguished in 2016 (2015: \$4,326).

NOTE 20 – DEFERRED INCOME

Deferred income comprises freehold land donated to the Bank as a Government grant and is stated at historical value of \$875 (2015: \$875). The grant was recorded using the income approach and will be recognised in profit and loss in line with the useful life of the assets scheduled for construction on the property.

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 21 – POST-EMPLOYMENT OBLIGATIONS

Pension obligations

CDB has both a contributory defined benefit New Pension Plan (“the Plan” or “NPP”) and a hybrid Old Pension Scheme (“the Scheme” or “OPS”) to secure pensions for eligible employees of the Bank. Both the Plan and the Scheme are final salary defined benefit and are managed by independent Trustees who are appointed by representatives from the management and staff respectively, of the Bank and operated under the rules of respective Trust Deeds.

A defined benefit plan is a pension plan having terms that specify the amount of pension benefits to be provided at a future date or after a certain period of time. The amount specified usually is a function of one or more factors such as age, years of service, and compensation prior to retirement.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. Current service costs, past service costs and gain or loss on settlement and net interest expense or income on the net defined liability are recognised immediately in profit and loss under “Operating expense”. Net interest is calculated by applying the discount rate to the net defined liability or asset.

Re-measurements of the net defined liability/(asset) comprising actuarial gains and losses, return on plan assets excluding amounts included in net interest on the net defined liability/(asset) and any change in the effect of the asset ceiling (if applicable) excluding amounts included in net interest on the net defined liability (asset), are recognised immediately in the statement of financial position with a corresponding debit or credit to retained earnings through other comprehensive income (“OCI”) in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Other post-retirement obligations

The Bank provides post-retirement medical benefits to its retirees. The expected costs of these benefits are accrued over the period using an accounting methodology similar to that for defined benefit pension plans. The present value of the post-retirement obligation is determined by discounting the estimated future cash outflows (relating to service accrued to the reporting date) using the yields available on high-quality corporate bonds.

Description of the plans

The plans require contributions to be made to independent investment managers under respective management agreements and who are authorised to exercise complete discretion over the investment and reinvestment of the plans’ assets and the reinvestment of the proceeds of sale and the variation of investments made.

The solvency of the plans is assessed by independent actuaries every three years to determine the funding requirements for the plans. The next actuarial valuation will be performed as at January 1, 2017. The financial statements of the plans are audited annually by independent external auditors. The level of contributions necessary to meet future obligations is approved by the Trustees acting on professional advice.

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 21 – POST-EMPLOYMENT OBLIGATIONS...continued

With respect to the hybrid pension scheme, members other than those of the NPP or those who have completed 33 1/3 years of pensionable service, pay regular contributions of 5% of salaries. The Bank meets the balance of the cost of funding the defined benefits and must pay contributions at least equal to 15.4% of contributing members' salaries and fund any deficit over a maximum period of 40 years.

In accordance with the rules of the NPP, members contribute 7% of their annual salary and the Bank contributes such sums as are certified by the Actuary to be sufficient together with the existing assets of the plan to provide the benefits payable and preserve the solvency of the plan. The current contribution rate certified by the Actuary and applied by the Bank is 22.8% of the aggregate amount of the annual salaries of eligible employees. All contributions (initially determined in Barbados dollars) are immediately converted to United States dollars and held or invested in that currency.

In 2014 The Board of Directors approved certain changes to the plan. These included:

- Allowing members who leave the Bank's services and are re-employed within a stipulated period to be eligible to re-join the plan with the earlier service to count as pensionable service subject to certain conditions being met;
- The increase in the normal retirement age from 62 years to 67 years subject to the consent of the Bank for those employees joining prior to August 1, 2014;
- A normal retirement age of 67 years for all members joining after August 1, 2014;
- A decrease in the qualifying period for attainment of benefits (vesting period) from 10 years to 5 years.

The post-retirement medical benefit is provided through a group insurance contract which is available to all defined benefit pension plan and hybrid pension scheme retirees (including those who took their hybrid pension scheme entitlement as a lump sum) provided they retired from the service of the Bank after completing at least 10 years' service. It is not available to persons who leave the service of the Bank before retirement. The Bank and the retirees share the burden of the medical premiums using a predetermined ratio.

NOTE 21 – POST-EMPLOYMENT OBLIGATIONS...*continued*

Key assumptions and quantitative sensitivity analyses

The cost of the defined benefit pension plan and other post-employment medical benefits and the present value of the pension obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed and approved by management at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, Management considers the interest rates of corporate bonds in currencies consistent with the currencies of the post-employment benefit obligation with at least an ‘AA’ rating or above, as set by an internationally acknowledged rating agency, and extrapolated as needed along the yield curve to correspond with the expected term of the defined benefit obligation. The underlying bonds are further reviewed for quality.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at intervals in response to demographic changes.

Future salary increases and pension increases are based on expected future inflation rates for the respective countries. The key assumptions and their sensitivity analyses are discussed further below.

Risks factors that may impact the Bank

The defined benefit pension plan exposes the Bank to:

- longevity risk,
- inflation risk since although pension increases are capped, the benefits to current employees are based on final average salaries,
- interest rate risk due to the liabilities being of longer duration than the dated securities;
- investment risk in order to counter the inflation risk and improve the investment return. As at the reporting date 55.2% (2015: 41.8%) of the plan assets were invested in equities.

The hybrid pension scheme also exposes the Bank to the same longevity, inflation and interest rate risks. The investment risk inherent in the cash balance option has been managed by concentrating on short term high quality dated securities (as all the Government and Government-guaranteed securities and two-thirds of the others had terms of five years or less), leaving the Bank exposed to the inflation and interest rate risks in the pension option.

ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 21 – POST-EMPLOYMENT OBLIGATIONS...continued

The asset allocation as at December 31 for the Defined benefit pension plan is as follows:

	2016	2015
Quoted in active markets		
Equity securities	\$20,637	\$25,523
	\$20,637	\$25,523
Unquoted investments		
Cash and cash equivalents	11,590	2,470
Debt securities	17,802	19,040
	\$29,392	\$21,510
Net accruals	(603)	(833)
Total	\$49,426	\$46,200

The asset allocation as at December 31 for the Hybrid pension scheme is as follows:

	2016	2015
Unquoted investments		
Government and Government guaranteed bonds	\$14,470	\$15,078
Supranational bonds	4,411	4,845
Cash and cash equivalents	377	(96)
	19,258	19,827
Net accruals	64	78
Total	\$19,322	\$19,905

The principal actuarial assumptions used for accounting purposes for both the defined benefit pension plan and the hybrid pension scheme are:

	Pensions	
	2016	2015
	%	%
Discount rate	4.25	4.50
Future salary increases	4.00	4.00
Future pension increases – Defined benefit pension plan	2.00	2.00

It was assumed that there would be no future pension increases for the hybrid pension scheme.

The proportion of the defined benefit pension plan preserved members opting for pension was assumed to be 100% (2015: 100%). The proportion of other members opting for pension was assumed to be 100% (2015: 100%).

Mortality rate

Assumptions regarding future mortality experience are set based on actuarial advice, based on published statistics and experience.

The average life expectancy in years of a pensioner retiring at age 60 for current pensioners (in years), as at the reporting date is as follows:

	<u>2016</u>	<u>2015</u>
Male	21.0	21.0
Female	25.1	25.1

The average life expectancy at age 60 for current members age 40 (in years), as at the reporting date is as follows:

	<u>2016</u>	<u>2015</u>
Male	21.4	21.4
Female	25.4	25.4

Sensitivity analysis and liability profile

(a) Defined Benefit Pension Plan

A quantitative sensitivity analysis for significant assumptions as at December 31, 2016 is as shown below:

	Discount rate		Future salary increases		Pension increases	
	1% p.a. increase	1% p.a. decrease	1% p.a. increase	1% p.a. decrease	1% p.a. increase	1% p.a. decrease
Impact on the defined benefit obligation	\$(8,335)	\$10,469	\$2,633	\$(2,315)	\$6,212	\$(5,256)

	Life expectancy of male pensioners		Life expectancy of female pensioners	
	Increase by 1 year	Decrease by 1 year	Increase by 1 year	Decrease by 1 year

Sensitivity analysis and liability profile...continued

(a) Defined Benefit Pension Plan...continued

The sensitivity analyses disclosed have been determined based on a method which extrapolates the impact on the net defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The following payments are expected contributions to be made in the future years out of the defined benefit obligation:

	<u>2016</u>	<u>2015</u>
Within the next 12 months (annual reporting period)	\$2,931	\$2,736
Between 1 year and 2 years	\$3,048	\$2,818

The defined benefit obligation is allocated among the plan members as follows:

Active members.....60% (2015: 60%)
Pensioners.....40% (2015: 40%)

The weighted average duration of the defined benefit obligation was 15.6 years (2015: 15.5) years. 94% (2015: 94%) of the benefits for active members were vested, 22% (2015: 22%) of the defined benefit obligation for active members was conditional on future salary increases.

NOTE 21 – POST-EMPLOYMENT OBLIGATIONS...continued

Sensitivity analysis and liability profile...continued

(b) *Hybrid Pension Scheme*

A quantitative sensitivity analysis for significant assumptions as at December 31, 2016 is as shown below:

	Discount rate		Future salary increases	
	1% p.a. increase	1% p.a. decrease	1% p.a. increase	1% p.a. decrease
Impact on defined benefit obligation	\$ (2,699)	\$ 3,301	\$ 369	\$ (446)

	Life expectancy of male pensioners		Life expectancy of female pensioners	
	Increase by 1 year	Decrease by 1 year	Increase by 1 year	Decrease by 1 year
Impact on the defined benefit obligation	\$ 277	\$ (258)	\$ 312	\$ (316)

The sensitivity analyses disclosed have been determined based on a method which extrapolates the impact on the net defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The following payments are expected contributions to be made in the future years out of the defined benefit obligation:

	2016	2015
Within the next 12 months	\$674	\$725
Between 1 year and 2 years	\$679	\$730

The defined benefit obligation is allocated among the plan members as follows:

Active members.....	65% (2015: 68%)
Pensioners.....	35% (2015: 32%)

The weighted average duration of the defined benefit obligation was 12 years (2015:12 years). 100% (2015: 100%) of the benefits for active members were vested, 7 % (2015: 7%) of the defined benefit obligation for active members is conditional on future salary increases.

Principal actuarial assumptions

The principal actuarial assumptions used for accounting purposes are:

	Post-employment medical obligation	
	2016	2015
	%	%
Discount rate	7.75	7.75
Medical cost increase	5.00	7.25

Mortality Rate

Assumptions regarding future mortality experience are set based on actuarial advice, based on published statistics and experience. The same assumptions used for the pension plans regarding mortality rates were used for the medical plan.

An increase of 1 year in the assumed life expectancies would increase the medical obligation at the reporting date by \$69 (2015: \$111).

Sensitivity analysis

A quantitative sensitivity analysis for significant assumptions as at December 31, 2016 is as shown below:

	Discount rate		Medical cost increases	
	1% p.a. increase	1% p.a. decrease	1% p.a. increase	1% p.a. decrease
Impact on medical obligation	\$(236)	\$290	\$294	\$(243)

The expected contributions to be made to the post-retirement medical obligation within the next twelve months is \$86 (2015:\$78).

Liability profile

The post-retirement medical obligation is allocated among the plan members as follows:

Active members.....	49% (2015: 54%)
Pensioners.....	51% (2015: 46%)

**CARIBBEAN DEVELOPMENT BANK

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 21 – PENSIONS AND POST-EMPLOYMENT OBLIGATIONS...continued

Post-Retirement Medical Plan...continued

Liability profile...continued

The weighted average duration of the defined benefit obligation was 15 years (2015: 17 years). 51% (2015: 46%) of the benefits of active members were vested.

NOTE 22 – BORROWINGS

The accounting policy is as defined at Note 17.

It is the Bank's policy to limit borrowing and guarantees chargeable to the Bank's Ordinary Capital Resources to 100% of the callable capital of its investment grade non-borrowing members plus the paid in capital and retained earnings less receivables from members (cash reserves). As of December 31, 2016, total borrowings amounted to \$654,530 (2015: \$502,752).

The aggregate fair values are based on discounted cash flow models using a current yield curve appropriate for the remaining term to maturity, similar terms and credit risk.

In July 2016 the Bank successfully completed a market borrowing for CHF 145 million at a fixed rate of 0.297% which will be fully amortised in 2028. Concurrently with the completion of this transaction a cross currency interest rate swap was concluded to convert the borrowing currency to US Dollars and the interest rate from a fixed to a floating rate.

As of December 31, 2016, the ratio of total outstanding borrowings and undrawn commitments of \$811,691 (2015: \$575,386) to the borrowing limit of \$1,398,243 (2015: \$1,334,984) was 58.1% (2014: 43.1%).

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 22 – BORROWINGS...continued

On June 8, 2016 Standard & Poor's reaffirmed its 'AA' long-term issuer credit rating and 'A-1+' short-term credit rating with a Stable outlook.

On September 30, 2016 Moody's Investors Service reaffirmed the Bank's long term issuer rating at Aa1 and maintained the Stable outlook.

NOTE 23 – EQUITY

Equity is comprised of capital stock, retained earnings and reserves.

The capital stock of the Bank was initially expressed in terms of United States dollars of the weight and fineness in effect on September 1, 1969 ("the 1969 dollar"). However, with effect from April 1, 1978, the Second Amendment to the Articles of Agreement of the International Monetary Fund came into force, as a result of which currencies no longer have par values in terms of gold.

Prior to December 1986, the Bank had not taken a decision on the implications of this change on the valuation of its capital stock and had translated its capital stock into current United States dollars at the rate of 1.206348 current United States dollars ("current dollars") per 1969 dollar. On December 11, 1986, the Board of Directors of the Bank agreed that, until such time as the Charter may be amended in respect of the standard of value, the expression "United States dollars of the weight and fineness in effect on September 1, 1969" be interpreted, pursuant to Article 59 of the Charter, to mean the "Special Drawing Right" (SDR) introduced by the International Monetary Fund as the SDR was valued in terms of United States dollars immediately before the introduction of the basket method of valuing the SDR on July 1, 1974, such value being 1.206348 current dollars for one SDR as at June 30, 1974 ("the 1974 SDR").

For the purposes of the financial statements, the Bank has expressed the value of its capital stock on the basis of the 1974 SDR.

The Bank's capital stock is divided into paid-in shares and callable shares. Payment of the amount subscribed to the callable capital is subject to call by the Bank to meet its obligations as and when required by the Bank subject to certain conditions. Payment for paid-in shares subscribed by its members is made over 6 annual instalments. Of each installment, up to 50 percent is payable in non-negotiable, non-interest bearing promissory notes or other obligations issued by the subscribing member and payable at their par value upon demand. Subscriptions that are not yet payable are presented as subscriptions not yet matured. The Charter states that payment of the amount subscribed to the callable capital is subject to call by the Bank to meet its obligations incurred pursuant to Article 7, paragraph 6 taking into account paragraphs (b) and (d) of Article 13 on borrowings of funds or on guarantees, only as and when required by the Bank.

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 23 – EQUITY ...continued

The Charter also allows for a member country to withdraw from the Bank, at which time the Bank is required to arrange for the repurchase of the former member's shares. There has been only one occurrence of membership withdrawal in the Bank's existence which occurred in 2000, and no other member has indicated to the Bank that it intends to withdraw its membership. The stability in the membership reflects the fact that the purpose of the Bank is to contribute to the harmonious economic growth and development of its BMCs individually and jointly. Moreover, there is a significant financial disincentive to withdrawing membership. The repurchase price of the shares is the value shown on the books of the Bank on the date a country ceases to be a member. However, the former member shall remain liable for direct obligations and contingent liabilities to the Bank for so long as any part of the loans or guarantees contracted before the date of withdrawal are outstanding. The Bank may partially or fully offset amounts due for shares purchased against the member's liabilities on loans and guarantees due to the Bank. Were a member to withdraw, the Bank may set the dates in respect of payments for shares repurchased. In the instance where paying a former member would have adverse consequences for the Bank's financial position, the Bank can exercise its option to defer payment until the risk had passed, and indefinitely if appropriate.

If the Bank were to terminate its operations, within six months of the termination date all liabilities of the Bank would first be settled out of the assets of the Bank and then, if necessary, out of members' callable capital, before any distribution could be made to any member country, including the withdrawing member. Management has therefore determined that members' shares are deemed to be a permanent investment in the Bank and are appropriately classified as equity.

- (a) At the fortieth meeting of the Board of Governors in May 2010, a general capital increase of 150% was approved. The Bank's capital as at December 31 was as follows:

	2016	2015
Authorised capital: 312,971 shares (2015: 312,971) shares		
Subscribed capital: 279,399 shares (2015: 279,399) shares	\$1,763,656	\$ 1,763,656
Less callable capital: 218,050 shares (2015: 218,050) shares	(1,375,135)	(1,375,135)
Paid-up capital: 61,349 (2015: 61,349) shares	388,521	\$388,521
Less: Subscriptions not yet matured	(6,941)	(45,197)
	\$381,580	\$343,324

CARIBBEAN DEVELOPMENT BANK

ORDINARY CAPITAL RESOURCES

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 23 – EQUITY ...continued

(d) Prepayment discounts

The Board of Governors of the Bank approved a “Variation of conditions of subscription of shares to permit a discount for prepayment” policy. The provision of this policy is that members are entitled to a discount from the Bank for prepayment of an instalment or part thereof (including those members which have already made prepayments) only if the prepayment is received more than three months prior to the date of the scheduled General Capital Increase (GCI) payments. The discount is computed based on a present value methodology and is disclosed as a charge against equity. During the year, discounts amounting to \$158 (2015: \$97) were provided to members who had made prepayments.

(e) Retained earnings and reserves

Retained earnings and reserves is comprised of:

	<u>2016</u>	<u>2015</u>
Retained earnings	\$519,137	\$530,642
Post-employment obligation reserve	(16,213)	(13,274)
Other reserves	13,260	13,260
	<u>\$516,184</u>	<u>\$530,628</u>

(f) Other reserves

Special reserve

In accordance with Article 18 of the Charter, commissions and guarantee fees received on loans made out of OCR are required to be set aside in a Special Reserve which shall be kept for meeting liabilities of the Bank. The assets of the Special Reserve are to be held in such liquid form as the BOD may decide.

At the One Hundred and Nineteenth Meeting of the Board of Directors held on July 21, 1988, the Board decided that appropriations to the Special Reserve should be discontinued with effect from January 1, 1989. Pursuant thereto, no commission is charged on loans approved after January 1, 1989, and all amounts received after that date as commission on loans approved before that date are treated as interest and accounted for as such. During 1993, the Special Reserve was converted into United States dollars and is valued at \$6,254 (2015: \$6,254).

General banking reserve

The General banking reserve has been deemed a reserve for asset impairments. During the year no reserves (2015: Nil) were transferred to retained earnings. As at December 31, 2016, the amount of the general banking reserve was \$7,006 (2015: \$7,006).

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 23 – EQUITY ...continued

(f) **Other reserves**...continued

Special reserve...continued

Post-employment obligations reserve

Post-employment obligations reserve comprise various gains/ losses arising from the actuarial valuation where actual performance results differ from projected results due to changes in assumptions and in differences between actual investment returns and assumed returns from the previous year's calculations. These differences are classified as experience gains/ losses.

	<u>2016</u>	<u>2015</u>
Cumulative experience losses	\$(16,213)	\$(13,274)
	<u>\$(16,213)</u>	<u>\$(13,274)</u>

NOTE 24 – INTEREST INCOME/EXPENSE AND SIMILAR INCOME/CHARGES

Interest income and expense

For instruments carried at amortised cost, interest income and expense are recognised in the statement of comprehensive income using the EIR method. Interest income and expense are recognised on a level yield basis for items classified as fair value through profit or loss.

Other fees and charges

Fees and other income are recognised on an accrual basis when the service has been provided.

(a) **Interest and similar income**

Interest income earned from loans outstanding and debt securities at fair value through profit or loss was as follows:

	<u>2016</u>	<u>2015</u>
Interest income	\$28,777	\$34,570
Other fees and charges	3,350	3,160
	<u>\$32,127</u>	<u>\$37,730</u>
<i>Income from loans and receivables</i>		
Bonds	\$3,109	\$2,289

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 25 – OPERATING EXPENSE

Restructuring costs

Termination benefits are payable when employment is terminated by the Bank before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Bank recognises termination benefits when it is demonstrably committed to either terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than twelve months after the reporting date are discounted to their present value.

Administrative expense

Administrative expenses incurred by the Bank are allocated to the OCR and the SFR in accordance with a methodology approved by the Board of Directors.

Other operating expense

Other operating expenses result from realised and unrealised fair value losses/gains on debt securities at fair value through profit and loss and foreign exchange losses/gains as a result of daily transactions.

Operating expenses are broken down as follows:

	2016	2015
Realised and unrealised fair value losses/gains	2,757	(194)
Foreign exchange translation	(183)	870
Administrative expenses:		
Employee related	\$9,304	\$9,366
Restructuring costs	(241)	672
Professional fees and consultancies	795	738
Travel	831	848
Depreciation	535	488
Other expenses	371	387
Utilities and maintenance	390	418
Training and seminars	207	194
Supplies and printing	79	96
Board of Governors and Directors	257	180
Computer services	504	454
Communications	265	292
Bank charges	113	72
Insurance	31	29
	\$16,015	\$14,910

**CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS**

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 25 – OPERATING EXPENSE...continued

Employee costs charged to the OCR were as follows:

	2016	2015
Salaries and allowances	\$6,363	\$6,380
Restructuring costs	(241)	672
Pension costs – hybrid scheme ^{1/}	163	177
Pension costs – defined benefit plan ^{1/}	1,962	1,710
Medical costs	292	297
Other benefits	525	802
	\$9,064	\$10,038

^{1/}This represents the allocation of the net pension costs to the OCR. The full pension expense for the hybrid scheme amounted to \$401 (2015: \$409) \$4,367 (2015: \$3,964) for the defined benefit plan and \$334 (2015: 320) for the medical plan.

NOTE 26 – ALLOCATION FROM NET INCOME

In accordance with Article 39 of the Charter, the Board of Governors shall determine at least annually the disposition of the net income of the Bank arising from its OCR (“operating income”). The OCR net income is typically allocated to the Ordinary Reserves. These reserves are available to meet possible future losses on loans and guarantees made by the Bank in its Ordinary operations and possible future losses from currency devaluations.

Management recommended for the approval of the Board of Governors acting in accordance with Article 39 of the Bank’s Charter, an allocation of \$6,000 from the net income (operating income) of the OCR to the Special Development Fund – Unified.

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 27 – DERIVATIVE FAIR VALUE ADJUSTMENT

The derivative fair value adjustment of \$(17,397) (2015: \$4,817) included in the statement of comprehensive income is derived as a result of the revaluation of the derivative financial instruments comprising cross currency interest rate swaps and interest rate swaps.

NOTE 28 – RELATED PARTY TRANSACTIONS

(a) The movement in the net inter-fund receivable or payable during the year was as follows:

	2016	2015
Balance at January 1	\$8,759	\$4,778
Advances	21,480	39,215
Allocation of administrative expenses	21,720	18,952
Repayments	(46,783)	(54,186)
	\$4,472	\$8,759

The receivable account represents net amounts due from/ (payable to) the SDF and OSF as a result of payments by OCR on their behalf as well as the allocation of administrative expenditure in accordance with Bank policy. Inter-fund balances are settled in cash on a quarterly basis.

The composition of the balances as at December 31, 2016 and 2015 was as follows:

Included in "Receivables and prepaid assets":

	2016	2015
Due from/ (to) SDF	\$3,840	\$5,341
Due from OSF	\$792	\$3,411
Due from Pension schemes	\$(101)	\$6
Due from Others	\$(59)	\$1

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 28 – RELATED PARTY TRANSACTIONS...continued

(b) Key management compensation for the year ended December 31 was as follows:

	<u>2016</u>	<u>2015</u>
Salaries and allowances	\$1,934	\$2,510
Post-employment benefits	993	721
	<u>\$2,927</u>	<u>\$3,231</u>

(c) **Interest subsidy fund**

In 2008, the interest subsidy fund was established by the Board of Directors of the Bank to subsidise part of the interest payments for which certain borrowers are liable on loans from the OCR. During the reporting period, \$479 (2015: \$513) was received from the OSF in interest on behalf of the borrowers. The fund balance is included in Receivable and prepaid assets in the statement of financial position.

NOTE 29 – COMMITMENTS AND GUARANTEES

Legal claims are recognised when the Bank has a present legal or constructive obligation as a result of past events and it is more likely than not that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. The Bank recognises no provisions for future operating expenses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to settle the obligation using the rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

Commitments

The Bank's commitments are represented by loan disbursement obligations to its borrowers up to the approved amount of these loans (Refer to *Note 10 – Loans*) and OCR commitments to the operations of the SDF(U) (Refer to *Note 3: Risk Management – Commitments, Guarantees and Contingent liabilities*).

CARIBBEAN DEVELOPMENT BANK
ORDINARY CAPITAL RESOURCES
NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

NOTE 29 – COMMITMENTS AND GUARANTEES...continued

Guarantees

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument.

Financial guarantees are initially recognised as a liability in the financial statements at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee, on the date the guarantee was given. Subsequently, the liability is measured at the higher of the best estimate of the expenditure required to settle the present obligation at the reporting date and the amount initially recognised less cumulative amortisation.

At its two hundred and forty-ninth meeting held on December 8, 2011, the Bank issued a guarantee in an amount not exceeding the equivalent of \$12 million with respect to Bonds issued by the Government of St. Kitts and Nevis (GOSKN) on a rolling, re-instatable and non-accelerable basis.

The guarantee contains a Counter Guarantee and Indemnity clause whereby the GOSKN undertakes irrevocably and unconditionally agrees to reimburse the Bank for any amount paid under the guarantee together with interest and other charges at a rate specified by the Bank. Where reimbursement to the Bank is not made (in whole or in part) within a period of 90 days of such amounts being paid the Bank such unreimbursed amounts shall be converted to a loan due by the GOSKN to the Bank's OCR.

Independent Auditors' Report

To the Board of Governors of Caribbean Development Bank

We have audited the accompanying financial statements of the **Special Development Fund** of the **Caribbean Development Bank** (the Bank) which comprise the statement of financial position as of December 31, 2016, statement of comprehensive income and accumulated net income and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information. The financial statements have been prepared using the basis of accounting described in Note 2.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements using the basis of accounting described in Note 2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements of the Special Development Fund for the year ended December 31, 2016 are prepared, in all material respects, in accordance with the basis of accounting described in Note 2.

Basis of accounting

Without modifying our opinion, we draw attention to Note 2 of the financial statements which describes the basis of accounting. The financial statements are prepared for the specific purpose of reflecting the sources and applications of member subscriptions and contributions and other development resources and as a result, may not be suitable for any other purpose.

CARIBBEAN DEVELOPMENT BANK

SPECIAL FUNDS RESOURCES – SPECIAL DEVELOPMENT FUND

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars)

1. Nature of operations

The Special Development Fund (SDF) was established to carry out the special operations of the Caribbean Development Bank (the Bank) by providing resources on concessional terms to assist borrowing members primarily for poverty reduction. Resources are provided by contributions from members and other contributors.

2. Summary of significant accounting policies

Due to the nature of the SDF, these financial statements have been prepared for the specific purpose of reflecting the sources and applications of member subscriptions and contributions and other development resources. These financial statements are not intended to be presented in accordance with International Financial Reporting Standards (IFRS) and have been prepared in accordance with the accounting policies outlined below.

Preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from these estimates.

Foreign currency translation

Functional and presentation currency

The functional and presentation currency of the Fund is the United States dollar (US\$) and the Fund's financial statements are rounded to the nearest thousand. Monetary assets and liabilities in currencies other than United States dollars are translated at market rates of exchange prevailing at the reporting date. Non-monetary items measured at historical cost in currencies other than United States dollars are translated using the exchange rates at the dates of the initial transactions.

Foreign currency transactions are initially translated into United States dollars at applicable rates of exchange on the transaction dates. Any gains or losses arising as a result of differences in rates applied to income and expenses and to assets and liabilities are shown as an exchange gain or loss in the statement of total comprehensive income for the year.

Debt securities at fair value through profit or loss

All debt securities are in a portfolio designated at fair value through the profit or loss and reported at fair market value. Securities are recognised on the statement of financial position when the Fund assumes related contractual rights and de-recognised when the rights to secure cash flows from the financial asset expire or when all risks and rewards of ownership have been substantially transferred.

CARIBBEAN DEVELOPMENT BANK

SPECIAL FUNDS RESOURCES – SPECIAL DEVELOPMENT FUND

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars)

2. Summary of significant accounting policies...*continued*

Debt securities at fair value through profit or loss...*continued*

Regular way purchases and sales of financial assets are recognised on the settlement date which is the date the Fund becomes a party to the contractual provisions of the instrument.

All securities are initially recognised at fair value, and transaction costs are expensed in the statement of comprehensive income and accumulated net income. Gains and losses arising from changes in the fair value of debt securities through profit or loss are included in the profit for the year in the statement of comprehensive income and accumulated net income in the period in which they arise. Interest income earned whilst holding securities is reported as “Interest and similar income - investments and cash balances” in the statement of comprehensive income and accumulated net income.

Determination of fair value

For securities traded in active markets, the determination of fair values is based on quoted market prices or dealer price quotations. A security is regarded as quoted in an active market if prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm’s length basis. If the above criteria are not met, the market is regarded as being inactive.

For securities in inactive markets, fair values are determined using valuation techniques. In these techniques, fair values are estimated from observable data in respect of similar financial instruments, using models to estimate the present value of expected future cash flows, or other valuation techniques, using inputs (for example, LIBOR yield curves, FX rates, volatilities and counterparty spreads) existing at the reporting date.

The Fund uses widely recognised valuation models for determining fair values of non-standardised financial instruments. For these securities, inputs into models are generally market-observable.

Loans

Loans and receivables are non-derivative financial assets that have fixed or determinable payments that are not quoted in an active market. After initial measurement, loans and receivables are subsequently measured at amortised cost using the effective interest rate method net of impairments if any.

All loans by the Fund are made either from currencies available from members’ subscriptions or from currencies borrowed and the principal amounts are repayable to the Fund in the currencies lent. The balances outstanding on loans to members and their agencies are secured by guarantees of the Governments of the member countries in which the loans are made.

CARIBBEAN DEVELOPMENT BANK
SPECIAL FUNDS RESOURCES – SPECIAL DEVELOPMENT FUND

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars)

2. Summary of significant accounting policies...continued

Loans...continued

The Fund is one of very few lenders of development and structural adjustment loans to Caribbean countries. There is no secondary market for development loans nor does the Fund intend to sell these loans and as a result, the use of market data to arrive at the fair value of loans will not yield any meaningful results.

The Fund does not make provisions for impairment on loans as any loss that may occur is taken in the statement of comprehensive income and accumulated net income for that year.

Cash and cash equivalents

For the purposes of the statement of cash flows, cash and cash equivalents comprise balances with maturities of three months or less from the date of acquisition.

Technical assistance and grants

Technical assistance and grants for capital projects to borrowing member countries are provided either from grants received from contributors or from other resources specifically allocated for this purpose. The contributions from donors are included in the financial statements from the date of the contribution agreement. Technical assistance is recognised when the project is approved and becomes effective.

Interest income and charges on contributions

For instruments carried at amortised cost, interest income and expense are recognised in the statement of comprehensive income and accumulated net income using the effective interest rate method. Interest income and expense are recognised as earned for items classified as fair value through profit or loss.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

Administrative expenses

Administrative expenses incurred by the Bank which cannot be directly charged to individual funds are allocated between the Ordinary Capital Resources (“OCR”), the Other Special Funds (“OSF”) and the SDF in accordance with a method of allocation approved by the Board of Directors.

CARIBBEAN DEVELOPMENT BANK
SPECIAL FUNDS RESOURCES – SPECIAL DEVELOPMENT FUND

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars)

3. Cash and cash equivalents

Cash and cash equivalents comprise:

	SDF Unified		SDF Other	
	2016	2015	2016	2015
Due to banks	\$28,621	\$1,351	\$1,465	\$3,325
Time deposits	10,219	30,197	1,906	8,804
	\$38,840	\$31,548	\$3,371	\$12,129

4. Debt securities at fair value through profit or loss

As part of its overall portfolio management strategy, the Bank invests in Government, agency, supranational and bank obligations, including time deposits and euro commercial paper. The Bank limits its activities of investing in securities to well established dealers and counterparties meeting minimum credit rating standards set by the Bank.

The annualised rate of return on the average investments held during the year, including realised and unrealised gains and losses was 0.79% (2015: 0.41%). Net realised gains on investments traded during 2016 for the Unified and Other funds amounted to \$50 (2015: \$174) and net unrealised losses were \$1,680 (2015: \$1,649).

5. Funds

In accordance with the Agreement establishing the Bank (the Charter), Special Funds Resources comprise the Special Development Fund and Other Special Funds established or administered by the Bank, including technical assistance and other grant resources contributed on a non-reimbursable basis. The Special Development Fund was established to receive contributions or loans which may be used to make or guarantee loans of high developmental priority, comprising longer maturities, longer deferred commencement of repayment and lower interest rates than those determined by the Bank in its Ordinary Operations. As a result of Rules adopted by the Bank in May 1983 for the Special Development Fund, contributions to the Special Development Fund currently comprise funds made available to the Bank under the rules applicable to the old Special Development Fund (referred to herein as “Other”) and shown separately from funds made available to the Bank from the Unified SDF (referred to herein as “Unified”).

**CARIBBEAN DEVELOPMENT BANK
SPECIAL FUNDS RESOURCES – SPECIAL DEVELOPMENT FUND**

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars)

5. **Funds...continued**

Details of contributions and loan resources to the Special Development Fund are stated at the equivalent in thousands of United States dollars where such contributions and loans have been made in currencies other than United States dollars, and are as follows:

(i) **Special Development Fund – Unified**

	<u>2016</u>	<u>2015</u>
Contributions (as per Schedule 3)	\$712,276	\$689,448

All contributions to the Special Development Fund - Unified are interest-free with no date for repayment.

Effective October 27, 2000, France ceased to be a member of the Bank, however under the Rules of the Special Development Fund, its contributions are non-reimbursable.

(ii) **Special Development Fund – Other**

	<u>2016</u>	<u>2015</u>
Colombia (as per Schedule 3)	\$5,000	\$5,000

The contribution is interest-free and was not repayable before 2000. The agreement with the contributor provides that not less than 5% or more than 10% of the contribution may be used for technical assistance. To date \$39 (2015: \$39) has been incurred on technical assistance and has been charged against the income from the contribution.

Independent Auditors' Report

To the Board of Governors of Caribbean Development Bank

We have audited the accompanying financial statements of the **Other Special Funds** of the **Caribbean Development Bank** (the Bank) which comprise the statement of financial position as of December 31, 2016, statement of comprehensive income and accumulated net income and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information. These financial statements have been prepared using the basis of accounting described in Note 2.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements using the basis of accounting described in Note 2, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates, made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements of the Other Special Funds for the year ended December 31, 2016 are prepared, in all material respects, in accordance with the basis of accounting described in Note 2.

Basis of accounting

Without modifying our opinion, we draw attention to Note 2 of the financial statements which describes the basis of accounting. The financial statements are prepared for the specific purpose of reflecting the sources and applications of member subscriptions and contributions and other development resources and as a result, may not be suitable for any other purpose.

CARIBBEAN DEVELOPMENT BANK

SPECIAL FUNDS RESOURCES - OTHER SPECIAL FUNDS

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

1. Nature of operations

The Other Special Fund Group (“OSF” or “the Fund”) was established to carry out the special operations of the Caribbean Development Bank (the Bank) by providing resources on concessional terms to assist borrowing members primarily for poverty reduction. Resources are provided by contributions from members and other contributors.

2. Summary of significant accounting policies

Due to the nature of the OSF, these financial statements have been prepared for the specific purpose of reflecting the sources and applications of member subscriptions and contributions and other development resources. These financial statements are not intended to be presented in accordance with International Financial Reporting Standards (IFRS). These financial statements have been prepared in accordance with the accounting policies outlined below.

Preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from these estimates.

Foreign currency translation

Functional and presentation currency

The functional and presentation currency of the Fund is the United States dollar (US\$) and the Fund’s financial statements are rounded to the nearest thousand. Monetary assets and liabilities in currencies other than United States dollars are translated at market rates of exchange prevailing at the reporting date. Non-monetary items measured at historical cost in currencies other than United States dollars are translated using the exchange rates at the dates of the initial transactions.

Foreign currency transactions are initially translated into United States dollars at applicable rates of exchange on the transaction dates. Any gains or losses arising as a result of differences in rates applied to income and expenses and to assets and liabilities are shown as an exchange gain or loss in profit or loss in the statement of comprehensive income and accumulated net income for the year.

CARIBBEAN DEVELOPMENT BANK

SPECIAL FUNDS RESOURCES - OTHER SPECIAL FUNDS

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

2. Summary of significant accounting policies...*continued*

Investments

All investment securities with the exception of equities are in a portfolio designated at fair value through profit or loss and reported at fair market value. Securities are recognised on the statement of financial position when the Fund assumes related contractual rights and de-recognised when the rights to secure cash flows from the financial asset expire or when all risks and rewards of ownership have been substantially transferred.

Equity instruments are carried at cost where they do not have a quoted market price in an active market and their fair value cannot be reliably measured.

Regular way purchases and sales of financial assets are recognised on the settlement date which is the date the Fund becomes a party to the contractual provisions of the instrument.

All securities are initially recognised at fair value, and transaction costs are expensed in the statement of comprehensive income and accumulated net income in the period during which they arise. Gains and losses arising from changes in the fair value of securities designated at fair value through profit or loss are included in technical assistance (TA) contributions/expenses for the year based on the terms of the specific fund. Interest or dividend income earned whilst holding securities is reported as "Interest and similar income - investments and cash balances" in the statement of comprehensive income and accumulated net income.

Equity investments are assessed for impairment annually. The impairment assessment is based on the net book value of the underlying asset and adjusted if the carrying value is less than the Fund's proportionate share of net assets. Impairment losses are recorded within income from investments and cash balances in the statement of comprehensive income and accumulated net income. Amounts distributed to the Fund are recorded as a return on investment until such investments are written off and are subsequently recorded as income.

Determination of fair value

For securities traded in active markets, the determination of fair values is based on quoted market prices or dealer price quotations. A security is regarded as quoted in an active market if prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. If the above criteria are not met, the market is regarded as being inactive.

For debt securities in inactive markets fair value is determined using valuation techniques. In these techniques, fair values are estimated from observable data in respect of similar financial instruments, using models to estimate the present value of expected future cash flows, or other valuation techniques, using inputs (for example, LIBOR yield curves, FX rates, volatilities and counterparty spreads) existing at the reporting date.

CARIBBEAN DEVELOPMENT BANK
SPECIAL FUNDS RESOURCES - OTHER SPECIAL FUNDS

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

2. Summary of significant accounting policies...continued

Investments...continued

The Fund uses widely recognised valuation models for determining fair values of non-standardised financial instruments. For these securities, inputs into models are generally market-observable.

Loans

Loans and receivables are non-derivative financial assets that have fixed or determinable payments that are not quoted in an active market. After initial measurement, loans and receivables are subsequently measured at amortised cost using the effective interest rate method less any impairment.

All loans by the Fund are made either from currencies available from members' subscriptions or from currencies borrowed and the principal amounts are payable to the Fund in the currencies lent. The balances outstanding on loans to members and their agencies are secured by guarantees of the Governments of the member countries in which the loans are made.

The Fund is one of very few lenders of development and structural adjustment loans to Caribbean countries. There is no secondary market for development loans nor does the Fund intend to sell these loans. As a result, the use of market data to arrive at the fair value of loans will not yield any meaningful results.

The Fund does not make provisions for impairment on loans as any loss that may occur is taken into the statement of comprehensive income and accumulated net income in the year that the impairment occurred.

SPECIAL FUNDS RESOURCES - OTHER SPECIAL FUNDS

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

2. Summary of significant accounting policies...continued

Cash and cash equivalents

For the purposes of the statement of cash flows, cash and cash equivalents comprise balances with maturities of three months or less from the date of acquisition.

Technical assistance and grants

Technical assistance and grants for capital projects to borrowing member countries are provided either from non-reimbursable grants received from contributors or from other resources specifically allocated for this purpose. The contributions from donors are included in the financial statements from the date of the contribution agreement. Technical assistance is recognised when the project is approved and becomes effective.

Interest income and charges on contributions

Interest income and charges on contributions are recognised in the statement of comprehensive income and accumulated net income for all interest-bearing instruments carried at amortised cost using the effective interest rate method.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

Administrative expenses

Administrative expenses incurred by the Bank which cannot be directly charged to individual funds are allocated between the OCR, the OSF and the SDF in accordance with a method of allocation which is approved by the Board of Directors.

3. Cash and cash equivalents

Cash and cash equivalents comprise:

	<u>2016</u>	<u>2015</u>
Due from banks	\$18,492	\$6,117
Time deposits	11,171	22,693
Money Market Instruments	6,258	-

SPECIAL FUNDS RESOURCES - OTHER SPECIAL FUNDS

NOTES TO THE FINANCIAL STATEMENTS

For the year ended December 31, 2016

(expressed in thousands of United States dollars, unless otherwise stated)

4. Investments at fair value through profit and loss

As part of its overall portfolio management strategy, the Fund invests in Government agency, supranational and bank obligations, including time deposits. The Fund limits its activities of investing in securities to well established dealers and counterparties meeting minimum credit rating standards set by the Fund.

The annualized rate of return on the average investments held during the year, including realised and unrealised gains and losses was 4.95% (2015: 3.24%). Net realised gains on investments traded during 2016 amounted to \$2,556 (2015: \$7,779) and net unrealised losses of \$124 (2015: \$5,852).

5. Funds

In accordance with the Agreement establishing the Bank (the Charter), Special Funds Resources comprise the SDF and OSF established or administered by the Bank, including technical assistance and other grant resources contributed on a non-reimbursable basis. For the purposes of these financial statements, the OSF have been presented separately from the SDF. The OSF are established in accordance with agreements between the Bank and the contributors and are for specific types of projects as agreed between the Bank and the contributors. In accordance with the Agreement, each Special Fund, its resources and accounts are kept entirely separate from other Special Funds, their resources and accounts.

These financial statements reflect the aggregated position of all the funds that comprise the OSF.

Technical assistance and other grant resources include resources for the Basic Needs Trust Fund and other resources established for specific purposes as determined between the Bank and contributors.
